Heart Health Plan: Three Steps to Wellness

Heart disease has been the number-one killer of Americans for years—and it doesn’t look like that’s going to change any time soon. According to the CDC, 610,000 die of heart disease and 735,000 suffer a heart attack annually.

The Immune System and Cancer Care for Dogs and Cats

A lowered immune system is one of the most common problems afflicting today’s dogs and cats. The condition is often manifested through skin allergies, sensitivities, compromised ability to fight off infections, and cancer.
