KCNH would like to take a moment to remember one of our most esteemed Professors who has gone to be with the Lord. Dr. Esther Palmer was the Dean of the School of Botanical Medicine. She was an educator and practitioner in herbal remedies for more than 50 years. Dr. Palmer was a 3rd generation practicing herbal therapist, and taught wild plant identification and uses at Olympic College in California. She will be greatly missed by the KCNH Family.

Dr. Esther Palmer

Esther Maurine Palmer (née Kinyon, née Roberts), 93, died September 4, 2018 in her adopted home of Willits, California. She was born April 12, 1925 to William and Ethel Roberts in Kansas City, Missouri. Esther is preceded in death by her parents, five siblings, both husbands, and her first son. She is survived by her brother Billy Joe "BJ" Roberts, daughter Lezlie Kinyon, son William Palmer and granddaughter Thea Boodhoo. A small memorial service was held at her home in Willits on Sunday, September 16th for those who knew her in the three years that she called California home. There will be a
second, informal memorial in Yachats, Oregon, at the Little Log Church with friends and family. A third and final memorial will be held on October 6th at Skokomish Community Church in the Skokomish Valley in Washington State near her home of many years on Hood Canal for all who knew her. As she wished, Dr. Palmer’s remains will be interred with her husband, Ellis Holden Kinyon, at Oddfellows Cemetery in Tumwater Washington.

Why More People are Choosing an Alternative Approach Over the Medical Approach?

By: Dr. Sally Warren

The National Center for Biotechnology Information has quoted that 8% of hospital admissions in the United States are due to adverse of side effects of pharmaceutical drugs, and approximately 100,000 people die each year due to these toxicities. These are prescribed drugs killing people who trusted the system. Thousands more people die from trusted “over-the-counter” drugs.
